SUMMARY

Final-year Computer Science graduate with hands-on experience building full-stack web applications. Comfortable across the stack, with a focus on clean, maintainable code and shipping features end to end.

SKILLS

JavaScript • TypeScript • React • Node.js • REST APIs • PostgreSQL • Git • Docker (basics)

EXPERIENCE

Software Engineering Intern — Nimbus Labs

May 2025 – Aug 2025

- Built a customer-facing dashboard feature used by 500+ daily active users, reducing manual reporting time by 40%.
- Fixed 25+ bugs across the frontend codebase and added test coverage for two previously untested modules.
- Collaborated with 2 senior engineers in code review, adopting the team's TypeScript and testing conventions.

PROJECTS

TaskFlow — Team Task Tracker

React, Node.js, PostgreSQL

- Built a full-stack task management app with drag-and-drop boards and real-time updates for a 4-person team.
- Designed the REST API and database schema from scratch; deployed on a free-tier cloud host.

EDUCATION

B.Tech, Computer Science

2022 – 2026

Savitribai Phule Pune University
